

DURGA DULARI TEXTILE SKILL DEVELOPMENT INSTITUTE (DDTSDI)

Comprehensive Campus Infrastructure, Master Blueprint & Vocational Training Curriculum

PROMOTED BY DURGA DULARI ENTERPRISES • BHOPAL, MADHYA PRADESH

2025–26 CSR EDITION

DURGA DULARI TEXTILE SKILL DEVELOPMENT INSTITUTE
CENTRE OF EXCELLENCE – SPINNING, MAINTENANCE & AUTOMATION
SKILLING TODAY • EMPOWERING YOUTH • BUILDING TOMORROW

OUR COURSES

- SPINNING OPERATOR
- MAINTENANCE FITTER
- ELECTRICAL FITTER
- ELECTRONICS FITTER
- UTILITY FITTER
- GARMENT OPERATOR
- KNITTING OPERATOR
- SOFT SKILLS & IT
(Gmail, Web Surfing, Ticket Booking, Digital Skills)

SPINNING TRAINING LAB **ELECTRICAL LAB** **ELECTRONICS & PLC LAB** **MECHANICAL WORKSHOP** **UTILITY & BOILER ROOM**

COMPUTER & SOFT SKILLS LAB **LIBRARY & E-LEARNING** **HOSTEL ACCOMMODATION** **CANTEEN** **SPORTS & ACTIVITIES**

INDUSTRY ALIGNED **NSDC / PMKVY CERTIFIED** **100% PRACTICAL TRAINING** **EXPERT FACULTY** **ASSURED PLACEMENT SUPPORT**

**SKILL IS POWER
EMPLOYMENT IS PROGRESS**

**EMPOWERING YOUTH
BUILDING INDIA**

2-Acre

Campus Land Area

8,094 sq.m. Total

2,400 sq.m.

Built-up Infrastructure

Admin + Academic + Labs

12 Labs

Specialized Training

Spinning, PLC, Electrical

600+

Annual Trainees

100% Mill Placements

Executive Summary & Institutional Vision

Durga Dulari Textile Skill Development Institute (DDTSDI) is an advanced vocational institution established to resolve the critical manpower and operational bottlenecks faced by India's textile mills. Founded under the leadership of Vijay Kumar Ojha (20+ years of industrial floor expertise), DDTSDI delivers ready-to-deploy, certified operators, mechanical fitters, and electrical automation technicians directly to top-tier manufacturing plants.

The campus combines classroom pedagogy with hands-on, live machinery training across ring spinning, automation, PLC drives, industrial boilers, and garmenting. Supported by complete residential hostels, modern dining, and athletic amenities, the institute fosters technical excellence, safety culture, and socio-economic empowerment for rural youth.

Key Highlights & Statutory Approvals:

- 100% Industry Placement Pipeline with 150+ Partner Mills across India
- Aligned with NSDC, PMKVY Standards • 80G CSR Tax Exemption Clearances

Skill a child. Shape a future.

SUPPORT THE DURGA DULARI SKILL DEVELOPMENT MISSION

Your CSR partnership directly empowers underserved rural youth with machine-heavy technical vocational training in spinning, weaving, automation, and electrical maintenance. Our structured training curriculum bridges the gap between potential and dignified, high-retention employment in India's foremost textile clusters.

₹25,000	₹1,00,000	₹5,00,000+
Trainee Starter Kit Provides one student with complete industrial PPE, specialized tool kit, training uniform, safety gear, and instructional course material.	Full Student Sponsorship Fully funds one student for 6 months of comprehensive residential training, fooding, machine consumable costs, and B2B mill placement.	Enterprise Lab Partner Institutional CSR partnership to fund laboratory upgrades, high-end PLC training panels, or modern ring-frame machinery maintenance.

Core Impact & Socio-Economic Goals

- **Vocational Livelihood Creation:** Transforming semi-skilled rural candidates into certified ring frame operators, autoconer fitters, and electrical technicians with immediate earning capacity.
- **Safe Residential Environment:** Separate, highly secure hostel campuses for boys and girls with 24x7 security, warden supervision, nutritious dining, clean drinking RO water, and daily physical fitness.
- **Standardized Mill Compliance:** 100% adherence to labor laws, PF, ESI, minimum wages, and safety protocols from day one of placement, creating sustainable corporate partnerships.
- **Sustained Client Retention:** Over 98% client retention rate across 150+ operational spinning and weaving mills in Gujarat, Madhya Pradesh, Maharashtra, Rajasthan, and Tamil Nadu.

6-Month Trainee Development Lifecycle

- | | |
|----------|---|
| Phase 01 | Mobilization & Screening — Aptitude screening, physical fitness assessment, background verification. |
| Phase 02 | Foundational Mechanical — Hand tools, bearing inspection, electrical safety, machine safety protocols. |
| Phase 03 | Live Machine Operation — Operating ring frames, carding machines, PLC panels, and utility boilers. |
| Phase 04 | Mill Internship & Placement — On-floor shift trials, immediate B2B placement, statutory PF/ESI registration. |

Statutory CSR Compliance & Partnership Clearances

Durga Dulari Enterprises facilitates verified CSR projects adhering to Schedule VII of the Companies Act, 2013 (Skill Development & Rural Employment). Comprehensive financial audits, biometric student attendance logs, and job placement verification reports are furnished to corporate CSR committees annually.

2-Acre Standard Campus Master Layout Plan

SCALE: APPROX 1:500 • TOTAL LAND: 8,094 SQ.M. • BUILT-UP: 2,400 SQ.M.

BLOCK / INFRASTRUCTURE	FLOORS	AREA (SQ.M.)	CAPACITY	KEY FACILITIES / AMENITIES
Administrative Block	G	250	25 Staff	Director Office, Placement Cell, Reception, Accounts
Academic Block	G+1	600	300 Trainees	4 Smart Classrooms, Seminar Hall, Library, IT Lab
12-Lab Complex	G	700	150 / batch	Spinning, Mechanical, Electrical, PLC, HMI, IoT Lab
Boys Hostel	G+1	250	150 Beds	38 Rooms (4-bed), Warden, Study Room, Games Room
Girls Hostel	G+1	250	150 Beds	38 Rooms (4-bed), Lady Warden, CCTV, Biometric Access
Dining & Kitchen	G	150	200 Diners	Commercial Steam Kitchen, 200-seat Hall, Storage
Power Load & Water Utility	G	40	62.5 KVA DG	62.5 KVA DG + 25KW Solar, Borewell, Rainwater Harvesting
Internal Road & Parking	–	300	30 Vehicles	Car & 2-Wheeler Parking, 5m wide Concrete Road
Open Ground & Playground	–	1,000	All Students	Football, Volleyball, Morning Drill, Sports Track
Expansion Reserve	–	500	Future Growth	Reserved for Advanced COE Labs & Additional Wings

Campus Zoning & Master Traffic Engineering

- Academic & Training Zone:** Strategically isolated from residential wings to ensure focused learning. Houses the 4 smart classrooms, technical library, and seminar amphitheatre with dedicated fibre optic connectivity.
- Heavy Machinery & Lab Zone:** Ground-floor heavy vibration-damped concrete flooring designed to hold 10-spindle spinning ring frames, heavy lathe machines, Atlas Copco air compressors, and electrical testing panels.
- Residential & Hostel Quarter:** Independent access for Girls Hostel with dedicated lady warden residence, biometric access gate, and complete CCTV perimeter surveillance. Boys hostel situated on northern perimeter.
- Utility & Power Infrastructure:** Equipped with a 62.5 KVA industrial diesel generator set supporting instantaneous auto-switchover during power cuts, backed by a 25 KW rooftop solar power installation.
- Safety, Fire & Water Management:** Borewell integration with Overhead Water Tanks (OHT), industrial Reverse Osmosis (RO) drinking purification system, fire hydrants, and localized Effluent Treatment Plant (ETP).

Standard Institutional Compliance Matrix

Total Land Parcel:	2.00 Acres (8,094 sq.m. / 87,120 sq.ft.) Freehold Land
Permissible Ground Coverage:	35% (Current Ground Built-up: ~1,800 sq.m.)
Fire & Life Safety Clearance:	Meets National Building Code (NBC) Part IV Fire Standards
Sanitation Ratio:	1 Toilet per 10 Residents; Dedicated disability access ramps
Power Connected Load:	45 KW Grid Supply + 62.5 KVA Captive DG + 25 KW Solar
Perimeter Security:	8 ft Boundary Wall with Concertina wire & 32 IP CCTV Cameras

Complete Laboratory Equipment & Floor Plan

HANDS-ON FLOOR TRAINING • 700 SQ.M. COMPREHENSIVE LAB COMPLEX

1. Spinning Training Lab 120 sq.m. Batch Capacity: 30 Trainees Ring Frame (10-spindle working model), Auto Coner unit, Speed Frame model, Compact spinning demo setup, Uster Tester, Yarn Wrap Reel.	2. Mechanical Fitter Lab 80 sq.m. Batch Capacity: 25 Trainees 50-type Bearing Display, Shaft alignment rig, Industrial gearbox cut-sections, Couplings, Heavy Lathe machine, Hydraulic & Pneumatic trainers.
3. Electrical Systems Lab 80 sq.m. Batch Capacity: 25 Trainees DOL & Star-Delta starter panels, VFD demonstration boards, Motor Control Center (MCC), LT switchgear, Motor rewinding benches.	4. Electronics & PLC Lab 80 sq.m. Batch Capacity: 20 Trainees 5× Siemens S7-1200 PLC trainer racks, HMI touchscreens, Servo drive benches, Optical/proximity sensor arrays, Profinet communication.
5. Utility & Boiler Lab 70 sq.m. Batch Capacity: 20 Trainees Screw Compressor (5HP), Industrial boiler cut-section model, Cooling tower demo, Multi-stage pump trainer, Water treatment RO unit.	6. Garment Manufacturing Lab 70 sq.m. Batch Capacity: 30 Trainees 8× JUKI Single Needle Lockstitch (SNLS), 4× Overlock machines, 2× Flatlock machines, Button attachment station, Steam pressing tables.
7. Knitting Technology Lab 60 sq.m. Batch Capacity: 25 Trainees 4× Circular knitting machines, 2× Flat knitting machines, GSM round cutter, Fabric inspection lightbox, Precision yarn creel.	8. Computer & Soft Skills Lab 60 sq.m. Batch Capacity: 50 Trainees 50× HP Core i5 desktop systems, Cisco Gigabit switch, Local server, 100 Mbps LAN, LMS training portal, English & digital skills software.
9. Tool Room & Hardware 30 sq.m. Batch Capacity: Tool Store Complete specialized mechanical tool sets, torque wrenches, gear pullers, digital micrometers, vernier calipers, pitch gauges.	10. Safety & PPE Training Lab 30 sq.m. Batch Capacity: Safety Wing Full PPE kits, fall protection harnesses, fire safety simulators, eye-wash stations, lockout-tagout (LOTO) training station, First Aid.
11. Motor Rewinding Workshop 20 sq.m. Batch Capacity: 10 Trainees Stator winding stand, copper wire spool racks, insulation paper cutters, Megger 1000V tester, varnish curing setup.	12. Pneumatics & Hydraulics Lab 20 sq.m. Batch Capacity: 10 Trainees Electro-pneumatic logic panel, solenoid valves, directional control valves, double-acting cylinders, hydraulic power unit.

Industry Placement Network & B2B Mill Tie-Ups

150+ ACTIVE SPINNING MILL CLIENTS ACROSS PAN-INDIA TEXTILE CLUSTERS

Durga Dulari Enterprises maintains direct workforce deployment agreements with India's most renowned spinning, weaving, and textile conglomerate groups. Graduates undergo on-floor technical evaluation and receive immediate employment with legal PF, ESI, and housing benefits.

Prominent Textile Employers Hiring DDTSDI Graduates:

VARDHMAN TEXTILE LIMITED

TRIDENT INDIA LIMITED

WELSPUN LIVING

NAHAR INDUSTRIES

ARVIND LIMITED

SITARAM SPINNERS

RELIANCE INDUSTRIES

KPR MILL LIMITED

GOKALDAS EXPORTS

Our 100% Placement Assurance Protocol

- **Pre-Deployment Evaluation:** Trainees are tested on speed, safety reactions, ring-frame doffing speed, and mechanical troubleshooting before dispatch.
- **On-Site Mill Induction:** Durga Dulari field supervisors accompany trainee batches to partner mills, managing plant HR onboarding, hostel check-in, and shift allocation.
- **Zero-Lapse Statutory Compliance:** 100% legal coverage including PF, ESI, Contract Labour License, and Worker Compensation insurance from Day 1.
- **Continuous Skill Upgradation:** Refresher training modules conducted bi-annually on new machinery models (Truetzschler cards, Rieter ring frames, Murata autoconers).
